

Be ready for Summer fun. Drive an MG (12000 USD)

Location **Vermont**
<https://www.genclassifieds.com/x-382046-z>

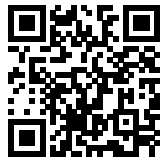

Not perfect but VERY nice MGTD. Original engine with matching numbers. Runs well (could use a tune up) and drives fine, New tires and complete braking system except master cylinder. NO rust and all wood is good. New Battery. Does NOT pop out of first nor reverse as so many TDs do. I do have the other interior trim pieces. There is but one dent, passenger front fender, the size of an orange. A very nice car, but I have too many right now. Bill of sale only as this is Cow Hampshire. Please email Pete as I don't hear the phone well. Cash only, no shipping. If you're reading this, the car is still available. Will delete if car is sold and paid for. Thanks. I do answer everyone, so if I don't email within a day please try again. I don't always trust these damn computers . Car is in midstate NH, near Newfound Lake. Very easy access to I-93

UPDATE: did a compression check #1=154 #2=159 #3=165 #4=165 and that's with it not being started since last fall. Just bought a side curtain set (windows). Frames good but need complete restoration. I will include a NOS convertible top I just found. Not installed (never installed). And yes I do have the drivers side door handle. Obviously the new top is NOT installed. The frame is and works just fine. The side curtains are solid but do need complete.
