Never Give Up Hope-We Find Lost Birds-Dogs-Cats In Seattle!

Is your bird missing? Where is your cat? Is your dog stolen ?

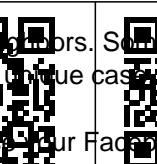

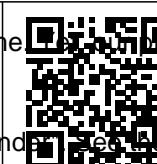

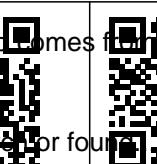

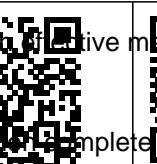

We can find them ! We Are the Lost Pet Finder.

You can never give up hope ! We find missing birds, stolen dogs and lost cats. Our method works because we enlist the neighbors, along with those in surrounding areas, to be "alerted" and looking.

We are a 14 year old voice messaging company. We notify, to a defined search area, i.e.your neighborhood and surrounding areas, 70% of all households, sending a public service announcement to cell and home phones. This message details particular information and your phone number, so you receive direct leads. Your pets reward poster goes to our busy Facebook page, which everyone is told about.

You will ALWAYS speak to one of us directly. There is no automated packaging of your pet's search...ONE SIZE DOES NOT FIT ALL ! We provide experienced consulting to put this all together. Then we stay with you the entire time, through out the search.

A little wire-fox terrier got out of her outdoor kennel and ran away. Dolly was lost for 4 days and her owners were sick with worry. We went straight to work developing a strategic search plan and voice message, all about her. It was broadcast to the neighborhood and area surrounding Dolly's home. She was found within 1 hour of the calls going out to everyone.

												
Dolly's return was due to the quick response of her neighbors. Some neighbors may respond at the time of the broadcast, even though it comes from a different message.	We want to help your's bring your pet home. Go to our Facebook search box and type "lostpetfinder" and see if your pets up for adoption or found.	After we receive a call from us shortly after we receive the form you fill out.	https://www.genclassifieds.com/x-382070-z
