

Hi families!

I most recently have been a FT nanny for a spirited 4 year old girl and a 6 year old boy in Clyde Hill. I have been with them for the past three years and love them to pieces. My schedule with them has changed due to work situations with the parents, and the children being in school full-time. I have flexibility to start with a new family as soon as needed but will also be working for my current family when my schedule allows and then beyond that when I am able to schedule them in. They know I am looking and will work with me to find the perfect situation. The mom works for Microsoft and the father is a local business owner and they want to be sure I find another great family or two to make up for my lost hours with them coming up.

I also have been working at a financial planning company for over the past year - and have gained much valuable experience in client relations, scheduling/organizing various schedules, event

planning/coordinating, marketing, as well as working with various non-profits in the Seattle/Eastside area  
 and also working with a portion of the Puget Sound Marketing Council.

working with many family role models incorporating professional activities with creative activities. We have become, like the organic/loom/leather shop, laughing, singing, singing and out on the porch while keeping with a nap/household schedule that works the best for everyone. But I love being able to

encourage (and help) the children be responsible for helping clean up, and put away the things they play with, brush teeth, help make snacks/bake, etc. I make incentive charts/lists, where we put stickers on the chart when they have great behavior, and do the things on the list, and usually take them to do something extra special when their charts are filled. But I always jump right in with the techniques and routines the families have established as well.

I have a newer safe Audi A4, full coverage insurance, car can sit up to three child seats (as long as one is a booster), and have a great driving record and experience with transport to/from school, classes and the above listed activities.

I am available for temporary, occasional care, a couple days a week positions, as well as PT/FT nannying. I also have vast experience with overnight care as well, while the parents travel. I also am available for holiday babysitting or regular evening/weekend babysitting - I have various families that I regularly babysit for and have long lasting relationships with, and it's always great to add new families/children . :)

Please feel free to get in touch with me in regards to your needs and I'd love to talk more and discuss details such as location, the children, rates and so on.

Thanks so much and Happy almost Spring!
