

Wood Stand Up Paddleboard Building Class (180 Flynn Ave, Burlington, VT)

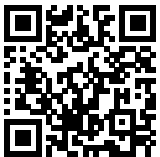

Location **Vermont**
<https://www.genclassifieds.com/x-382204-z>

Paddle on something special next summer; build your own custom wood Stand Up Paddleboard. We're opening our woodworking shop to Stand Up Paddleboard enthusiasts ready for the challenge of building their own personalized wooden SUP. Our craftsmen have dedicated SUP stations for individuals, couples, or families willing to work hands-on to create their own boards; from wood skeleton through fiberglass. Students will use shop hand tools under the guidance of an experienced shop foreman, who will be mentoring students throughout the entire process.

Classes scheduled for Tuesday and Thursday evenings, 6-9pm. Completion takes approximately 2 months working two evenings per week, plus one weekend. Classes work well for individuals, couples, and family members. Cost; materials plus work-space rental of \$325 per month

Stop by our shop to see our daily rider from this past summer and check out other creations on our website: www.taowoodworking.com. Your board will be durable, fun to ride, and an amazing work of art. Visit our Facebook page for more pictures and our daily shop feed at.
