Good, strong running Vortec 350 tbi. New front end work, bushings, tie rod ends, etc. Mechanically, very dependable, strong running truck. Does need a dash pad.

Cons- has body damage on the passenger rear door into qtr panel. Do to glancing a phone pole by the previous owner. That's really the only thing wrong with the truck. I however do want to keep the tires n wheels for my other lifted suburban. Asking 2200 obo. Will accept a lil less for me to keep my tires n wheels. Bumper pictured is no longer on the truck. Will have stock bumper
