If you're reading this, you know the Mark Charles Platform Work Station

That said, I have one in 9.5/10 condition (some would say perfect 10) that I inherited with a purchase. Unfortunately for me, I'm with no extra room, inside the house, or inside the shop. About 1 or 2 of these pop up on ebay each year. Anywhere 9-1000 bucks for the platform only. They usually come with wear, little rust here or there, maybe a dented or missing leg, no ramp, no stand, and no front wheel chock lifting mechanism section.

What I have and what im selling, is the whole deal.

- Full Dark Grey hammered stand with all the chrome legs, no dents, no rust, no damage, full decals intact. Garaged 42 yrs.
- Full chrome rear stand. Garaged 42 yrs.
- Full chrome front wheel assembly stand with orig chains/plastic chain guard. Garaged 42 yrs.

I may regret this sale later in life, but that's how it goes, I simply do not have the space for a show piece. Please do not lowball. The stands go for 750, the rear wheel stand goes for as high as 300 and the front wheel system will go for a couple hundred as well. This is the full kit for a grand, no fiddling around looking for missing parts to complete the deal.

I WILL INDEED take a trade value of \$1200 or more, or 1000 FIRM cash; I'm now to the cost where I'll have to generate the cash stream from the nonlinear starting point, in a dimbo.

I just said I need your help to my email. My subject line is Mark Charles. I am not a real person. I know you need are what I'm selling. The end goal is simply what I would love to see in the shop in your home or in your shop. Thanks!
