Just removed from our architect-designed home during a remodel, this is a nice Jenn-Air gas range with electric oven and broiler (dual-fuel).

- Modern brushed stainless steel finish
- 4 burners
- Precise electric oven and broiler with convection
- Comes with downdraft ventilation option (or can be used with a hood)

Works fine; I just cook a *lot* and replaced it with a Wolf range.

You must arrange pickup from Seattle's Arboretum neighbourhood (near 24th Ave E and the University Bridge).

*** Please include a contact telephone number when writing ***

*** If this ad is still up, the range is still available ***

** Inquiries that disregard the above 2 lines will be cheerfully:) **
