Sound Engineering Internship

Sound engineer needed for live recording Thursdays 430 to 11pm, studio tracking, mixing, mastering and editing. This position is an unpaid internship that could lead to a paying position at a small record label and recording studio. The right candidate will learn ProTools hardware and software, Serrato hardware and software, Maschine hardware and software, Logic, Reason, Ableton Live and more as well as how to set up and mix a live sound system.

This internship can include pay in the form of commission for sales work and \$10/h as an assistant.

This position is available immediately. Please apply via email with a resume and availability.
