

Found Yellow Lab Mix Male (White House)

Location **Tennessee**
<https://www.genclassifieds.com/x-382526-z>

A older male Yellow Lab mix found us and has been here for about one week.

We live in Cottontown, off HWY 31W, near Clearview Road.

He is a very nice mellow dog. Doesn't like being in the house. He is very obedient and understands the word "no".

If we are unable to find his owners then we are willing to give him to a nice family.

We have three dogs and can not keep him. We will be moving soon and don't feel comfortable taking him to the pound to be killed or just leaving him here.

Hoping to either find his family or place him with a new family.

He is not fixed and we would be willing to help pay for the procedure. Please give us a call if you are willing to provide this dog with a loving home.

For some reason he is very camera shy - didn't like looking into the camera.
