When you hire a moving company you need to know that your valuables can be trusted to be moved safely for the right price. We take cash and check deposits just like the major companies, however on Craigs list that is a high risk en devour. Check our references. Our third party website reviews all our written recommendations and has given us gold status. We have used scaffolding to get onto balconies, moved a 1,000 lb fish tank, pool tables and pianos and take apart beds, side by side refrigerators, doors, railings, lighting, mirrors etc. Not every move is simple. Sofa's that recline often have to be taken off the frame, sleepers need to be secured, everything should have a blanket protecting it. All we need is your address, where your moving to, which floors at each location (stairs or elevator) and a list of items. Once we have this information then we can quote 2,3 or 4 hours on average. Typical jobs range from 320 to 440 plus gas costs around 20-25 dollars. That's it. No surprises. Feel at ease your move is taken care of by me and a good worker or two. At half the price of our professional competition use a company with over a decade of experience. Call now to schedule a free site visit or quote.

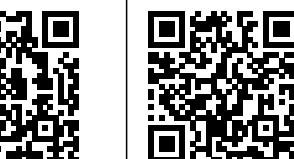

Thank you,
Sincerely

Mike Gross
