Weeds, weeds and more weeds....My backyard doesn't have grass it has weeds. For the 7 years I have lived here, I have just mowed the yard in the back and nothing else. Over time, many layers accumulated. I don't have a large backyard, but I want to take steps in the not too distant future to plant grass back there. First step would be to see what can be done to get rid of the layers and layers of weeds that have been cut and are just laying on the ground. The weeds were cut a couple days ago now. I need someone who owns a rake (wide one) to come over, rake up as much as they can and bag them. I will provide the bags. I currently have 2 but can get some more if needed. I cannot get down too low because of leg and back problems. It is not difficult work for someone younger, but would be difficult for me....I'd say an hour to 90 minutes worth of work depending on how fast you go. I'm offering \$20 for the work.
