It's with a sad heart that I must re-home my little buddy. He is a little over a year old, very friendly and affectionate to all ages except toddlers (he likes to chase them), flies, talks a little, is very active, demands attention, and is very loud. Most cockatoos are loud, especially in the morning and in the evening. He is a typical cockatoo. He is my friend, you will have to come and meet him and me. I will ask your about your knowledge and experience. He comes with a cage and a play stand. Small re-homing fee applies. NO scams or re.
