Aspen 12" Quick Draw Contour Back Brace LSO Pain Relief Orthosis White Size XL

CALL CELL ASK FOR JAMES OR TEXT

"The Contour LSO by Aspen is the latest technology for restricting motion in the lumbar spine. The brace is effective and comfortable, using the patented QuikDraw with Rigid Anterior Panel (RAP) as the platform. The Contour LSO is modular with adjustable side and vertical panels, allowing the practitioner to fit a wide variety of patients while minimizing inventory. Specifically designed with the progression of patient care in mind, the Contour LSO is a multiple orthotic system, which can be stepped down to the proven QuikDraw RAP. It's a bargain compared to what others online are pricing these.
