Hey!

First off, I want to clarify that this is not a creepy scheme by an old guy--I am a 20 something young male professional looking to expand my portfolio. I am a semi-pro photographer and I am a perfectionist when it comes to my photography.

I am looking for amateur models 18-35 who are interested in modeling or have some experience for fitness and/or artistic nude photographs. You must have a fairly decent body and be willing to get awesome shots--if you are extremely shy, this gig probably isn't for you. DON'T BE INTIMIDATED! I am good at directing and a pretty easy person to get along with. Depending on your time or experience, I may be willing to pay for your time, or if the photos are good enough, I will talk to you about selling them via stock sites and/or e-gallery sites.

Please reply with face pictures and body photos if you have any. Tell me what sort of experience you have and what kind of shots you are interested in.

Thanks!
