

TV Removal and Disposal (Denver Metro Area)

Location **Colorado**
<https://www.genclassifieds.com/x-382826-z>

Sometimes these older TV's can be difficult to give away or dispose of. They are hazardous to the environment as they have mercury and lead in the electrical components, so you cannot put them in dumpster as you will get fined! I offer a service, I come to your home and remove old unwanted televisions and electronics (working or not), and dispose and recycle of them properly. I service the entire Denver Metro area, always present myself in a professional manner, and have very reasonable costs. Please contact me for pricing info. Thank you, and good luck!!!

***** Please note:

Basement removal is an extra \$30 to pay for my extra labor*****

Projection TV's may cost extra also*****
