I'm a graphic designer fluent in Adobe Photoshop, Illustrator, InDesign & AfterEffects software. I've run a sole proprietorship specializing in freelance design for the past 7+ years. Before that I was a lead designer at a large ad agency for 6 years.

\$25 per hour rate. I work very quickly. Will agree to time frame prior to designing. Will work nights and/or weekends to complete projects. Comfortable with tight deadlines. Credit Card/PayPal accepted.

I have national clients from varying industries in multiple time zones so I work well outside the traditional 9-5. Can provide examples of work; just specify industry segment and I can email examples. (ie. healthcare, automotive, retail, education, legal, entertainment, real estate... Please respond to this ad with Name-Phone Number and a brief description of the service you would like and we can get you pricing.

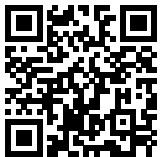

MY WEBSITE PROCESS

I make about 2 websites per week and average a 4 day turnaround assuming I have everything I need to complete it. I have a document I have customized over the years called a Wish List that has an itemized list of things I typically need to launch your site (bios, product imagery, pricing, headshots, social media links etc. . .). My average InfoSite design and launch (Home, About Us, Pricing/Services, Shopping Cart, Contact Form, Blog/Social Media Integration) is about \$800. I also handle hosting the website. Please reply back with your name --number and a brief description of the work needed done and we will be very aggressive and reasonable with our pricing. Thank!
