Archie is a sweet and loving choc lab/pit bull mix He loves to play and snuggle. He is a great companion and needs a lot of love. He loves car rides and walks around the neighborhood. He is potty trained and understands basic commands. He lives to please you. He could be an inside or outside dog. He doesn't care. He lives inside with us. I have had him for 2 years without a problem. I can get his vet records. I now have a daughter that just started walking last week and Archie is terrified of her. If she sneaks up on him he jumps up and runs away scared. I am afraid he might bite if she scares him too bad. He has no history of aggression with people.
