

Computer cabinet (40 USD)

This cabinet can go flush against your wall or is also designed to fit in a corner. This item is very heavy and you will need to have at least two very strong people. We can not help you remove it.

There is a pull out tray for a key board (see pics), a drawer and many storage compartments. There are a few scratches on the inside bottom (where the computer tower was), but not visible on the outside. I think a little mahogany gel stain will fix it.

Cherry finish. Made by Sauder
Thank you for looking.
