I am a well published biographical author with a major New York publisher who has a completed (not completely copy edited) a fact based science fiction that has potential for sale. Upon purchase you will own the manuscript and all rights. This was an off-season just-for-the-fun-of it project that is not the genre of my publisher and frankly I just do not have the time to seek publishing. The price may surprise you. I look forward to hearing from you if you are interested. I have had several responses, many of the questions are answered in the above description, please, take your time, life is not that.
