ScreenMagic Films is shooting the first in a series of zombie apocalypse feature films on June 8th. There is a small budget in place but we are giving Executive Producers/investors an opportunity to participate and bring additional funding to the table. The minimum investment is only \$2k! EP's can take a percentage of funds raised or become an owner in the film based on the percentage of funds contributed and participate in all profits which would be split accordingly. Any Executive Producers or Investors that decide to contribute, your money would need to be in by April 30th so we know exactly what funds are committed to the shoot. We are set to shoot regardless but we want to give EP's and investors the opportunity to get involved. After April 30th if an EP/investor wants to get involved with this production the buy in will be a \$10k minimum. Interested parties can view our website and past work at ScreenMagicFilms
