I am currently studying for the ParaPro Assessment Test and will be taking the state exam on April 30th. The ParaPro Assessment measures the reading, writing, and basic math competencies of practicing and prospective ParaProfessionals. This certificate can be used to certify teacher's aides and assistants in the instruction of these subjects to school children. I am getting this certification to better help me teach grade school children when volunteering and at home.

I will soon be adding a CPR certification and more! I have many references, so please feel free to ask for them. I like to think that I'm fun, but I do deal equally in love and discipline. I have a huge focus on education and I think I will make the perfect "extra few hands" for a busy full-time working parent! Please know that I am available during school hours and after school hours, but I will have my 7 year old son with me after school hours. I am hoping this will be a good experience for all of the kids!

Please email me with any questions! Thanks!

Debra
