

This glamorous Chinese Chippendale / Chinoiserie black lacquered dresser shines in elegance! It can be used as a credenza or buffet in either your dining room or living room. Or as a fashionable dresser for your bedroom for a touch of Hollywood Regency glam. No matter how you use it or where you place it, you will add instant style and sophistication to your home.

We believe this vintage piece is from the 50's-60's era, and it's clear that the original owner kept it in excellent condition. There are no scratches or dents whatsoever, and the piece has been professionally restored to its original lacquered beauty.

The dovetail constructed drawers glide in and out perfectly.

As we all know, fashion and trends are cyclical and always return. Famous interior designers, such as Jonathan Adler, are selling reproductions (not made in the USA) of this style for a lot more (\$800 for a single chair)!

At \$700 this solid, well-constructed, vintage dresser is a steal!

Specs & dimensions:
