Help me get my old Type 1 VW on the road (West Chester)

Looking for a car guy who can help with both body and mechanical work on a VW - based kit car. The car runs but needs a bit of repair and enhancement including a coat of paint to be road worthy.

Car and work are located at my place near West Chester.

I have plenty of tools and will provide all supplies, if you have a few tools it may help.

Experience with air cooled VW and a little bit of fiberglass or body prep experience is preferred.

Hours here are flexible. Please provide some idea of how many hours per week you'd like to work.
