

Dodge Mechanic (fuel line and more) (Colerain)

Location **Kentucky**
<https://www.genclassifieds.com/x-383675-z>

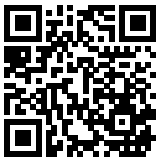

I have a list of items that I would like to get fixed on my HD work trucks this spring/summer. I am looking for a skilled mechanic in my area with a shop location that I can use throughout the year for various repairs. Not looking for traveling mechanics from far away. Just need one experienced mechanic that actually has the time. Items on my list include fuel line, brakes, power steering pump/lines, heater core. 97 Ford 5.8 engine and 96 Dodge cummins diesel engine.

Thanks

Ford needs power steering. Dodge needs heater core and maybe fuel line. Both will need brakes at some point.

I would like to get the fuel issue fixed.
