I'm a lyft and Uber driver myself. It's a ride share company in which you pick people up in your car and take them where they need to go and everything is handled by an iPhone or android app. They're running promotions in DC for new drivers. If a new driver signs up for lyft in DC we both get \$1000 signing bonus. Same goes for uber. Here's the referral links to sign up with.

If you have any questions the reddit community for lyft is very active and will have more information about the company

It's an amazing job to have. If after the sign up bonus you still want to work you can, if not you're free to quit and you can keep the bonus. Just have to take 30 rides in 30 days for the bonus to post to our accounts. I average about \$22 an hour doing uber and lyft. Trying a new way to give out my referral codes. Let's make some money together! You make your own hours and work when you want. Any

questions feel free to ask. I've been doing this since September of
