Hello,

I'm a professional animator and I create almost of the art for those animations, so I also do freelance logos and illustrations. My prices range from \$50-\$300 depending on the complexity of what you want. (\$100 seems to be the average price I charge most often which includes at least three revisions.)

You can see the range of logos that I've done on my attached images. From elegant, more conservative styles to more cartoony ones, the custom logo I design for you will be unique. I also do mascots and caricatures so just tell me what you want.

I require a simple agreement that spells out terms and half the fee as a deposit to be paid via PayPal or Chase Quick Pay. Once I've completed your project to your complete satisfaction, I collect the balance and forward you the vector art.

So if you contact me, please include a description of what you need or sketches or any links to examples of the styles you like. I will respond quickly online but don't hesitate to call me directly.

Thanks for considering me,

Frank Cromer
