

# graywhite kitten (Farmington Hills)

Location **Michigan**  
<https://www.genclassifieds.com/x-384038-z>

gray and white kitten looking for a home, will be ready to go in 2 weeks.  
 This kitten will be FIXED. And strictly an inside only no declaw kitty (agreement states this).  
 This kitten will come with 2 deworming's, 1st booster, 1st flea prevention application given, 1st bath, ears, nails. Full exam(2), and Mom was tested fiv felv negative.

Short Coat. 95% gray, 5% white.- short coat  
 Kitten is best in a home with another kitten or young cat. Doesn't like to be only kitty. This kitten has been around older children and adults, not young children. Kitten will need a few weeks to adjust to new home.

Kitten can go to its new home, as early as 3 days after it has been fixed.  
 I am looking to place this kitten in a home where another kitten is at. I am requiring you are over 21 years old. You can afford to get the next 2 boosters for it, and keep it up to date on flea prevention. I require if you RENT to tell me where you rent from, (name of the place and their phone#). If you own do not need this info. I also Require What vet office you go to for shots/ vet care.

If you have other animals please tell me what and how many.  
 The muted calico is pending a new home

(kitten can go at about 10-11 weeks)
