Cable Tech

Location **Iowa**
https://www.genclassifieds.com/x-384070-z

We are looking for residential cable installation techs. Pay is piece rate and can range anywhere from $800-$1800 weekly.

CATV experience or similar is preferred, but not required. We can possibly make arrangements to provide training.

Having a truck or vehicle that can carry ladders is also preferred, but we can possibly rent vehicles.

We also have other cable installation related opportunities in other locations if willing to travel.

If interested, please provide your email address, let me know if you have experience, and if you have a truck or vehicle that can carry ladders.
