Tired of bills jumping up with little or no notice?

3 year fixed rates available now, with no enrollment fee. Bills GUARANTEED to cost no more than your current utility provider, with the "GOLD" Guaranteed Back End Rebate (in writing) for your protection.

If your current supplier, by chance, reduces their rates below your fixed rate, you get 110% of the overpaid amount back.

For Example: In MA, National Grid is currently 16.27 cents per KWH and Viridian Energy is 12.79 cents per KWH for a 36 month fixed rate for the supply portion of the bill. (Rates vary by area and state.)

If your current utility provider is National Grid, you would continue to have National Grid for electric delivery, repairs and billing. Only the supply portion on your bill would change. (Viridian beat National Grid electric rates in MA all winter long.)

Viridian uses greener renewable energy with a greater percentage than most other suppliers. Shorter terms and variable rates are also available.

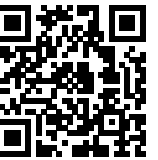

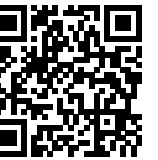

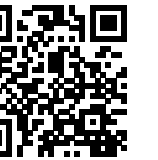

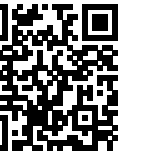

You have the right to choose your electric supplier due to government deregulation to prevent utility monopolies.

Check out this website today to view videos, brochures, and rates for your area. I can answer any questions you might have. [www.viridian.com/janisgrinnell](http://www.viridian.com/janisgrinnell)

Solar could be an option for you as well. Save money and help our planet with Solar energy. Lower electric bills are just the beginning.

No cost installation. Free monitoring & maintenance. Protection from big price hikes.
