iOS App. Mod MONSTER Needed. (Gables)
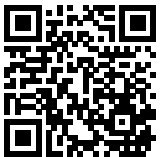

Location   **Florida**
https://www.genclassifieds.com/x-384145-z

Hi,

I am currently in the process of modifying an app for an event and need someone who can sit with me and help modify a current open source app to remove some of the functionality/ dress up the front page and change the icon.

Send message with some relevant description of yourself and we can get started.

Thanks!
