

Looking for a black pit bull to adopt white marking chest (St.paul)

This is a pic of me n my neighbors dog who looks early similar to my recently deceaced black/ white 2 yr old pit bull. Who I lost tragically and instead of getting a puppy I know there are adult dogs who need homes. But not opposed, open to any age I just seem to resonate with this particular coloring blood line of pits some call it the Freddy cougar blood line. Just hoping to take care of a pit from his blood line as a service to the breed and as therapy for myself if u or some one you know needs to re home yr pit bull of similar markings I'd be willing but if not I know I'll be used where I'm needed to lend a hand to all pit bulls but I've only got room for one in my home at this point. K thanks

I'd be willing to pay a rehoming fee thanks
