To the non-medical / healthcare society, my pictures were not intended to be graphically candid and yes you can laugh at them, I think they are a bit humorous but hey, how else do I sell them. NO matter read on!

There are:

- 4 full bodies (2 in very good condition) (2 good condition to fair) + 1 canvas bag.
- 1 Resusci Annie (good condition) w/ case
- 1 BP arm trainer (good condition) w/case
- 2 Babies (1 very good) (1 poor condition) w/cases
- 2 Male Catheter pelvis (good condition) w/cases
- 1 small box of male/female velcro interchangeable parts.

ALL USED from a school.

Some need a little TLC and cleaned up from adhesive tapes etc.

Great for start up training for classes, schools, nurse aid training, church mission groups etc.

To give you an idea of pricing, one of the full body trainers shown sold on eBay for \$2000. last Fall. I have 2 identical models. But they are extremely heavy and shipping costs unfortunately ruins the sale on eBay.
