I already have some guitars and want to let this one go to be able to pay the bill.
This is Taylor's holy grail 810 model made in Santee, CA right before they moved to their current factory El Cajon, CA.

If you are looking for the sound right in between bright Taylor and warm and dark Martin, this is the guitar you need to go for. Unlike Taylors made these days, this one sounds very warm and deep.

Pristine condition (Other than minor normal wear and a few dings)

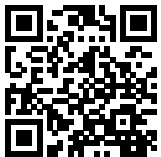

Specs:
Rosewood back and Sitka spruce side
Recent guitar set up by Emory at Appalachian Bluegrass. (Spent \$100)
LR Baggs Anthem full version installed by Emory at Appalachian Bluegrass (Spent \$400)
Original Hardshell Case

\$1,700 Cash / Credit card / Paypal accepted
