I want to put together an ORIGINAL country band...I have 15 or so finished songs, (plenty for a set)but I want to write MORE with others and play these songs out live....think fun songs,love songs,energy guitar songs, sing alongs....

The ideal band would have Guitar Electric,Guitar Electric Rhythm,Keys,Fiddle,steel,bass,Drums and at least 3 of the members could sing.

The core of the band could be made up of 2 guitars and bass with fiddle for the time being until we became rehearsed.....I have seen this done in town with much success already...

I am willing to play drums or bass or guitar or even fill on pianomuch rather just sing...but people in hell want ice water..right ?

Now, I may be reaaaachingg just a bit, but I know how to write catchy tunes and I KNOW THERE ARE TALENTED WRITERS AND PLAYERS OUT HERE.....waiting to get their tunes out in the hemisphere.. LET'S GET TOGETHER AND AT LEAST ...TRY

Here are some of my tunes I wrote ,composed,arranged,tracked,sang and played on these...but I know it could be SO much better with other like minded talented individuals with the same goal.....
