Not to be confused. This is not a real service, it's just a placeholder (also, we don't have a real phone number, file download, or anything like that).  
 Accounts:  
 We can setup all the initial accounts and then turn them over to you where you can change the passwords and maintain them from there. If we set them up, here are the accounts and annual cost estimates:  
 Hosting (we use Cirtexhosting.com) ~\$25 annually  
 Domain Registration (we used GKG.net) ~10 annually
