## OVERNIGHT CARE SUMMARY:

Veterinarians recommend providing care for pets in their own homes to reduce the risks of stress, injury,

---

and disease that can happen in kennels or a new environment. So we offer overnight sitting at your home and check-ins to your home to care for your pets when you are away for extended periods of time.

We are a two person team devoted to giving your pup all the love and attention they deserve! We can either stay at your home to be with your pup the entire time you are gone or we can check-in and visit with your pup as many times a day as you would like, we will work with you to create a customized plan to provide your pet with the best possible care!

Being an active couple we love to take the dogs on tons of walks (at least three a day) and trips to the park for extra exercise! The park is also a great place for people watching and socializing your dog if you would like! We always have fun activities planned to make your pups feel comfortable and most important happy during your absence. The more fun activities, the more distracted they are and the less they remember how you are gone :)

We always send text and photo updates throughout the day and night so you know how much fun they are having becoming part of The Loyal Paw Family!

We take pride in our wonderful reviews and high rate of returning clients, and we promise to give your pup the same tender, love and care! Our goal is to form a lasting friendship with both you and your pup so that whenever you need to be away you know they are having fun and are well taken care of :)

We can't wait to hear from you and care for your pup soon! We are confident we will have a blast together while you are away!
