I live in Alaska year round. I've been doing business here for over 6 years and just looking for any work available that I can get. I own a small moving company but business this year is off to a very slow start and I need work!

I am capable of completing most household chores, if necessary I have additional help for \$15/hr more. Including paint, repair drywall, do finish trim work, appliance installation, and even do some bathroom remodeling, all within reason.

For the outside of your home, I can replace windows, fix broken steps and porches, haul off garbage/debris, mend fences, and various other tasks.

If there is something I haven't mentioned then please feel free to give me a call and probably I can help you.
