2011 Toyota Corolla for sale in really good condition.
42000 miles on it. Great commute car with 28/35 mpg. But still have power to play if needed. It has a 2way auto start for those cold days. And almost brand new studded tires. Might consider summer set for an extra few hundred bucks. The car is in perfect condition outside and on the inside, except a little dirty spot on the passenger seat (can see on the pic). I'm firm on the price but will consider reasonable offer. Asking \$9800.

Please call or text with questions. 9eight2 four6nine2. Thanks for.
