

# Craftsman 28 Snowblower (725 USD)

Location **Washington**  
<https://www.genclassifieds.com/x-396209-z>

You won't see a better one for the price. This is a 28" with an 11.5HP Briggs & Stratton engine. Electric start or pull start. Not the usual 8 or 9 hp ones with the 28" width. It has 6 fwd and 2 rev speeds and a mounted Shoot cleaner if the need should arise. Pic's show how nice it is. The model # is pictured if you want to check it out.

This is the off season price so if you want a Beast of a machine get it while the price is low.

Question/want to see it. Let me know. I can be fairly flexible. This is a CASH sale only so if you don't have the cash no need to ask. First to come with the \$'s get it. Will not hold because of past experience.

If you can see the listing it is available so please do not ask if it is.

Thanks for looking.
