

HomeOffice Computer and Network Services

Location **Louisiana**
<https://www.genclassifieds.com/x-397243-z>

Offering comprehensive solutions for both residential and commercial information systems, networks, servers, routers, and security - from virus removal, to home network installation and configuration, to enterprise domain administration. Capable of completely building new or upgrading existing information systems' and infrastructure entirely. Certified in video surveillance technologies - can plan, configure, and deploy cameras and their servers. Information security consulting services are available as well.

Prices will vary heavily per situation, given the broad range of what is possible.
