

99 Ford Powerstroke (Miles City)

Location **Montana**
<https://www.genclassifieds.com/x-397568-z>

1999 Ford F-250 Powerstroke Diesel Lariat edition with 6 speed transmission, 4 wheel drive with locking hubs. This pickup is in great shape for the year and mileage on it. It currently has 256000 on the body, but roughly 200000 on the motor and less than 10000 miles on the transmission and clutch. Had new ball joints, tie rod ends, and alignment done with less than 10000 miles on that as well. Also have 4 more rims that will go with the pickup. Front tires are fairly new with good tread, rear tires are +/- 50%. Leather interior there is a hole in the driver seat but can be covered up with seat covers. Nothing is wrong with the pickup, I just do not drive it much anymore and its too nice to just sit around. Feel free to call, please leave message as I do not have service alot of the time, will not respond to texts or emails! This is a good solid pickup which I would have no problem going anywhere with. Call for.
