I'm a local artist that searching for another body paint model for an upcoming event. The event will take place on May 22nd from 8pm-1am at Utopia Studios. Every time I do one of these events I always get an amazing response and it has lead to other gigs for me as well as my models. What I'm looking for is someone that is comfortable in their own skin (you must be comfortable at least being topless), awesome personality and open minded to a new artistic experience. No modeling experience is required although some is preferred but not a deal breaker. Please submit recent face and body photos for consideration and be at least 18 (I will)
