Level Nine Media is a community based, forward-thinking web design and creative agency looking for their next sales superstar!

We are hiring an online ad poster to copy-paste ads that we provide on online forums, classifieds, and other places that will lead to business generation and closed sales.

You'd post the ads that we send you, you get emails from small businesses, then you'd forward them to a special email to keep track of your leads- you get paid a % on each lead (from 5% to 20%, depending on contract) - You will be "cc'd" on each email so you can keep track as well. You can also look for local businesses that need websites/graphic design and get great leads that way. The sky truly is the limit in this job.

Each closed lead averages anywhere from \$499-\$10,000, and as soon as we get paid, you get paid.

Must have PayPal and be reliable. This is a real job, no spam or adult themed scams, just small business lead generation. Please send email with name, phone number, and relevant info if interested.
