

(Missing 1.5 year so far) Neutered large silver

Location **Oregon**
<https://www.genclassifieds.com/x-398695-z>

Gone missing one Sunday afternoon (10-6-13) and has not returned since then, if you think you see him, he responds well to "Kitty treats," "Jazz-man", "bathroom," or "Go Outside?" It's not easy for him as feral to be around people, especially children. He is a clever cat and didn't attack my vet doctor when taking care of an infection he had, he's about 13.86lbs I had him for two years treating him like the cool chef/ I took him in so he wouldn't be put to sleep up in Alaska. looks like an part Abyssinian toward the ear where it becomes short-haired. His mother is still alive living in the snowy woods of Cordova, where my mother still feeds her brown tabby and orange one as well, so you can see his's got a mix of two, orange, brown, silverback, it varies seasonal.

Distinct Markings:: Fleck of amber (red) under the Iris of his green left eye shown in the facial
