

# 50 Off all Website Designs for your Business (Nashville)

Location **Tennessee**  
<https://www.genclassifieds.com/x-399032-z>

I'm a Freelance Web Designer, Front End Developer & WordPress Developer focused on designing and developing creative, unique websites and mobile solutions for industries of all types. Prior to pursuing my passion to focus solely on freelance work, I worked at a small Financial Marketing Business in Raleigh for over 8 years. There I was able to apply my technical background in network engineering and systems administration while also working hands on with product design, development and online marketing.
