

Your communities Opportunity (Anywhere in the State)

Location **South Dakota**
<https://www.genclassifieds.com/x-399270-z>

I would like to discuss the possibility of locating our corporation and business to your community.

*Alternative Fuels Vehicles are a growing segment of the world vehicle population.

*We at ATI believe the best way to support and grow this population of "AFVs" is to make sure they have a adequate and well trained service infrastructure.

*Whom better suited to provide service to these AFVs than the people with the most experience working on other vehicles, Mechanics.

*These AFV Technicians need our training to bridge the gap between their training on traditional vehicles and the training they need to provide the best service on AFVs.

We are looking for local individuals or a group that may be interested in investing in a partnership with ATI. A group of people with a minimum of \$25,000, each, to invest, and soon enough you have the \$350,000 needed to run the school. We have up to 50% of ATI's shares as compensation, an opportunity for a true partnership. A partnership with Locals is always best, when considering a move to a new area. They know the local politics, who to talk to, and where to be. Only once we are established, will we consider a partnership with a Community College, or University.

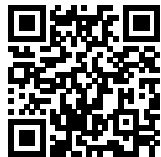

In return, we are offering your community ATI's future jobs and industry growth. We will give your community a "head start" in the race to attract "Sustainable Energy" companies to your area. As with other schools, having one Technical Institution will attract related Businesses. These businesses will have very little ecological impact on the environment of your towns and acreage, while providing many new employment opportunities for your constituency, usually lite manufacturing.
