I flew up to help my elderly mother fix her home so she can access stuff and get around in it a little easier and the day i arrived her water pipes burst and flooded her whole house. We were forced to move to my sisters while the insurance company fixes the damage. This is like a living hell being here and i cant afford a hotel so i was hoping to find someone who could let me stay in an unused trailer or spare room for 10 days in exchange for some work. It will probably be less than 10 days according to the crew fixing the damage.

I'm clean cut, 56 years old and physically.
