I am pleading out to the public of Anchorage Alaska... My name is Lucia Venzor we are from El Paso Texas. My nephew Oscar Flores was up there working at a military base, the day before yesterday he was attacked by both his father and his uncle, he defended himself and he was the one arrested. In order for us (his family) to bail him out he needs a 3rd party corporate signature because he is not an Alaska resident. If we don't bail him out he will loose his job up there and its a great opportunity for him...We have the money to bail him out , but we need an Alaska resident to sign for him and we don't know anyone over there. So I'm asking if someone out there is willing to sign for him I'm 100% certain that he won't skip on you...or even if there's someone that knows a lawyer that is willing to take his case pro bono, because we don't have money for a lawyer or some numbers to people or places that can help us out...please we really need someone out there to help us he is innocent of the crime...I know there's good hearted people and we would really appreciate the help...you can contact me by txt or email. Thank you and God
