Vocalist here looking for a band to join or start, or just jam. I'm a bit new here and don't know too many other musicians. Wouldn't mind people around or close to my age, I'm 25, but of course that's not set in stone because its music! A bit about me: I just got out of the marine corps a few months ago, and I am a chef and teach capoeira (the brazilian martial art) part time. I'm pretty chill as far whatever "environment" I'm in.

My influences are: Pearl Jam, The Kinks, Allman Brothers Band, Jimi Hendrix, The Jam, Led Zeppelin, Blues Traveler, Brad, Collective Soul, Earth Wind & Fire, Heatwave, Jamiroquai, Jeff Buckley, Meat Puppets, Velvet Underground.

Some of my stuff:

Those are some finished mixes, I have way more but I've been slow about mixing them, I'm not opposed to going out of some of the listed genres, BUT PLEASE listen to my stuff and get a feel before contacting me. I always have people who respond without even reading the ad....not knowing what I sound like or what music I dig.....-__-

Anyway look forward to hearing from.
