I have two rooms available in my freshly renovated brick house that I recently purchased. The home is in a super nice and quiet neighborhood. One room is in the finished basement and is attached to a large living room. The other room is in the main floor of the house. I do require smoking to be outside and would only cats in the basement room. Garage parking available for extra. Please email me, text, or call a leave message and I'll return your call when I am off work..
